FENCING PROGRAM

With the number of students going on to High School fencing teams and fencers getting ready for USFA (United States Fencing Association) competitions, students whose goal is to be competitive will require more than one lesson per week. This schedule and the number of classes offered will allow students to achieve this goal. Those students wishing to take additional classes during the session may take the next level higher for their second class. Example: Students choosing Intermediate Foil 1 may take an Intermediate Foil 2 class as their additional class for that session, those taking #2 may take a #3 class in addition and so on. If there are any questions regarding the YMCA fencing program, please contact Instructor Charles Hurley.
